# { JavaScript }

slice

splice
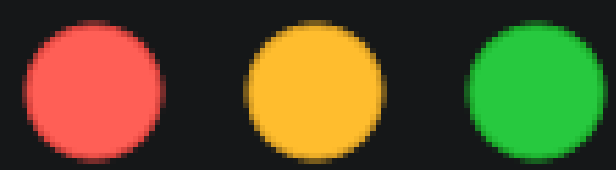

Gagan Saini

Slice

Doesn't modify the original array(immutable).

Returns the subset of original array.

Used to pick the elements from array.

```javascript
const arr = [1, 2, 3, 4, 5];
const slicedArr = arr.slice(1,3);

console.log(arr); // [1, 2, 3, 4, 5]
console.log(slicedArr); // [2, 3]
```
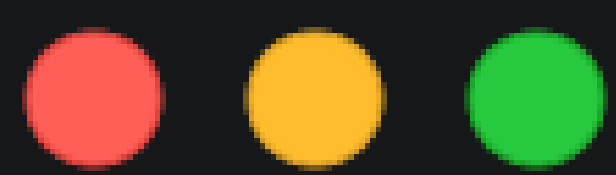

Gagan Saini

Splice

Modifies the original array(mutable).

Returns the deleted elements as array.

Used to insert or delete elements to/from array.

```js
const arr = [1, 2, 3, 4, 5];
const splicedArr = arr.splice(1,3);

console.log(arr); // [1, 5]
console.log(splicedArr); // [2, 3, 4]

```
